

November 16, 1991

Dear Friend,

Enclosed is the second issue of *Walkin' Steel*. The response to the first issue was very favorable and we have done our best to maintain the same high quality in this current issue. Please use the coupon at the bottom of the page if you would like more copies.

The conference that was held in September to commemorate the rebellion at Attica prison 20 years ago and to strategize about how to stop the construction of the planned control unit in Florence, Colorado went very well. Over 250 people attended, coming from seven states and Canada. We have prepared a detailed summary of the day and will send it out to anyone requesting a copy, again by using the coupon at the bottom of the page.

The main decision that emerged from the conference was to hold a series of demonstrations and/or educational activities across the country on the weekend of May 2 and 3, 1992. Each site would choose an appropriate local target (prison, federal building, courthouse, legislator, etc.) and would raise similar national issues, while at the same time referring to local issues as well. The plan will be developed in greater detail over the next few months but we would urge you to save the dates now.

Additionally, we are embarking on a campaign to get the congressional subcommittee that oversees the Bureau of Prisons (BOP) to hold public hearings on the planned control unit prison at Florence. We will provide you with more details on this in our next mailing.

Finally, our drive to force the BOP to answer our questions has worked in small part. After refusing for seven months to answer our questions, the flurry of demands from all of you that they answer the questions finally forced a four-page response. Needless to say, the response was replete with lies and we have now prepared a response to their response. This too is available to anyone who requests it.

As always, we thank you for your support. This is a difficult time, but not a hopeless time. Together we will make a difference!
