New Movement in Solidarity with the Puerto Rican and Mexican Revolutions

On Sunday, June 27, we are going to Grant Park to take a stand against the mobilization of the Nazi's, Klan and Moral Majority. We urge all progressive people to join us to oppose this white supremacist rally and to express our solidarity with the national liberation struggles that are leading the struggle here against fascism and repression.

At a time when the U.S. and its allies -- Israel and S. Africa -- are waging wars to maintain control of strategic lands and resources like the Middle East, it is trying to build a base for fascism within its own borders. Chicago opened its official doors to the Nazi's and Moral Majority as part of an over-all strategy to organize a base among white people to fight for white supremacy -- "western ideals and civilization and family" and "the right of white people to control land and every aspect of society." This movement is organized to attack the national liberation movements within its own empire which are the greatest threat to the continued existence of the system of U.S. imperialism.

Historically, the rise of fascism in Germany and Italy was the response of an imperialist system in crisis that needed to consolidate its population to wage imperialist wars to maintain domination of strategic lands and markets. The virulent anti-semitism, anti-communism, and anti-gayness was a key Nazi strategy to destroy all dissident movements. But in the U.S. in the 1980's, the growth of police terror, the Klan, Nazis, and Moral Majority is fundamentally about movements being led by the highest levels of the U.S. government, like the CIA and FBI. They exist to carry out genocide against the colonized nations within the U.S. empire. The imperialist rulers understand that in order to increase repression and violence against Black, Puerto Rican Chicano-Mexicano, and Native American people, violate their human rights and very ability to survive, they have to try to destroy the national liberation movements of these nations, particularly their armed clandestine organizations. The rise of grand jury repression and attacks on captured freedom fighters are key parts of the government's search and destroy campaign against the liberation movements. As the state escalates its offensive against Third World communities, it's encouraging the white supremacist ideology and violence of movements like the Nazis and the KKK. Now in Chicago these white supremacist forces are spray-painting "white power" slogans and organizing throughout communities that undergoing gentrification. Their purpose is to build support among white people for the forced removal and destabilization of Black and Spanish-speaking communities to regain control of the cities--the seats of imperialist power.

Fighting fascism must be based on fighting white supremacy. This was clear in 1977 when the Nazis said they would march in Skokie. The Jewish community mobilized to fight anti-semitism, but refused to fight the Nazis if it meant fighting white supremacy. When the Nazis moved their rally to Marquette Park in Chicago, raised the slogan of "white power" and nearly killed a Black man who was walking through the park, progressive white forces virtually refused to oppose them. This white supremacist practice among progressive and so-called left forces is being repeated today. The Stonewall Contingent is opposing the Nazis solely based on their anti-semitism and anti-gayness. This has given legitimacy and strength to zionism in the name of opposing anti-semitism. This is happening at a time when the world zionist movement is mobilizing behind Israel's terrorist invasion of Lebanon. We condemn the zionist invasion of Lebanon and are in solidarity with the right of the Palestinian people to regain their homeland by any means necessary. We support the leadership of the Palestine Liberation Organization. We condemn zionism as white supremacy, and as an integral part of the imperialist system and defense of white settler colonies.

In the face of growing fascism, the Puerto Rican Independence struggle, the struggle for the socialist reunification of Mexico, and the New Afrikan Independence struggle are moving to consolidate and advance their movements. Last month in Denver, these revolutionary forces came together to develop national strategy and program against fascism. These movements are leading the overall fight against U.S. imperialism--their victories will mean death to the klan and the nazis! They offer white people a revolutionary alternative to the fascist mobilization. We oppose attacks on lesbians and gay men, we oppose anti-semitism and all forms of bigotry and prejudice. But unless we fight white supremacy, and build revolutionary solidarity with the national liberation struggles, we can never be part of the strategy to win, and defeat the enemy -- U.S. imperialism.
