

"In building the new Nicaragua, we create the new woman"

VIDEO SHOWINGS:

WOMEN-THE SECOND REVOLUTION

A moving video portrait of Nicaraguan women on the battlefield, building popular power, struggling against illiteracy, sexual harrassment and prostitution.

CULTURAL INSURRECTION

A view from inside the nationwide mobilization to eradicate illiteracy, showing how Nicaragua is reconstructing at the same time the country fights contras led by the CIA.

DISCUSSION TO FOLLOW: The US now has 16,000 troops in Central America and over 16,000 in the Middle East. How can we build a strong women's opposition to the US war machine? What can we learn from the militant women's solidarity actions of the Viet Nam period: women's anti-ROTC protests, women's demonstrations at the Pentagon and the Presidio, etc.
